## CAREER OBJECTIVE

Driven and detail-oriented B.Tech Computer Science student with a strong programming foundation in C++ and Python. Highly passionate about contributing to a dynamic IT environment. Eager to leverage academic coursework and hands-on coding experience to solve complex, real-world problems and drive technological innovation within a challenging developer role.

## EDUCATION

|                                                                                                                          |                                          |
